

LED Sunset Dimmable Downlights

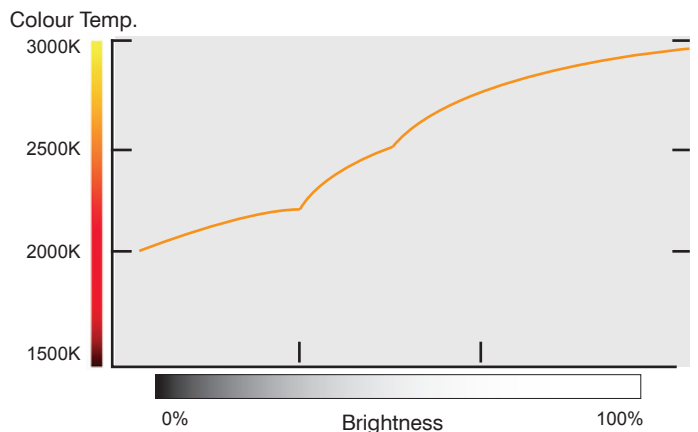

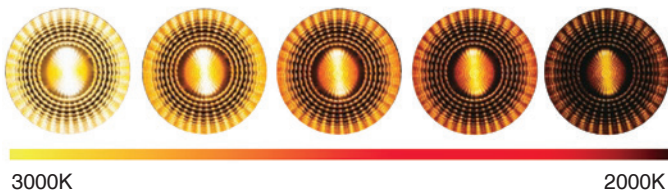

Adjustable
LGDSS85A (15W)
LGDSS90A (15W)

Fixed
LGDSS90FIX (15W)

Introducing our Sunset dimmable downlights - unique in that, when dimmed, not only does the lumen output drop but the colour temperature of these lights reduces as well - giving a moodier, candlelight effect. **High colour CRI** is maintained throughout the brightness range with no flicker effect whilst dimming. Sharp LED chip used.

The result is a LED downlight that behaves like a conventional halogen light when dimmed.

May be used with standard switch and dimmer control (not supplied)

We recommend the following dimmers:
Clipsal 32E450TM, Clipsal 32E450LM
SAL SDD 350

SUNSET SPECIFICATIONS							
Code	Colour Temp.	Watts	Beam angle	CRI	Cut out	Lumens	Chip
LGDSS85A	2000-3000K	15W	24° / 38° / 60°	>90	85mm	1100	Sharp
