

LED Outdoor Lights

IN WALL OUTDOOR LED LIGHTS

Introducing the new generation in outdoor lighting. Tec-Led's recessed LED waterproof in-wall lights provide soft yet effective spot lighting to outdoor areas such as pathways, patios, walkways and driveways. Available in either circular or square fitting, these lights are easily retro fitted to existing structures, drawing economical power.

LED OUTDOOR STRIP LIGHTING

Waterproof Flat Flex on Aluminium Bar

Flat Flex LED represents a versatile, energy saving and aesthetically successful lighting option in a myriad of applications for the professional commercial lighting specifier. It can be installed in the smallest of openings and yet still provide a range of tonal values to suit all ambiances. Any of our wide range of LED strip lighting can be converted into an outdoor IP65 rated fitting. The waterproof Flat Flex is perfect for outdoor stair lighting, highlighting water features and can even be used to frame pools. For further specifications regarding these LEDs please see our Flat Flex brochure

24V Snake Light

Providing a continuous glow with invisible light points and high brightness, the Snake light is especially suited for architectural illumination, both indoors and out. LEDs are encased in a robust PVC sheath, able to withstand foot traffic and the elements.

SPECIFICATIONS - Snake Light

Code	LSNKL2700-6500RGB	Minimum cutting length	100mm
LED Type	SMD 5050 tri-chip	Maximum connection	10m
Material	PVC	IP Rating:*	IP68
Working Voltage	DC24V	Transverse min bending diameter	12cm
Rated power/m	12W	Accessories	Front connector Middle connector End cap Aluminium U- channel
Lumens per metre	(Warm white) 330		
Distance between LEDs	1.67cm
